

**Activity:** MAINTENANCE

**Equipment:** SPREADERS/SINGLE HOOKS

**Task:** RIGGING

---

## Potential Hazard

When rigging, the safety latch on the hook tends to break or lose its strength and/or stability deeming the hook unsafe.

---

## Safety Innovation

This Crosby SHUR-Loc hook allows for the employee to safely rig and lift various equipment without damaging the integrity of the latching mechanism. If the recessed trigger is not closed upon rigging, the latch will automatically close when there is the slightest amount of tension.

For additional information regarding this Safety Innovation, or to submit your own Safety Innovation, please contact Douglas E. Needham, P.E., Michigan Aggregates Association at [dneedham@miagg.org](mailto:dneedham@miagg.org).
